

INFO TECH MIDDLE EAST

Trusted to Deliver Excellence

ONE CONTACT, ONE RESOURCE, MANY SOLUTIONS

INTRODUCTION

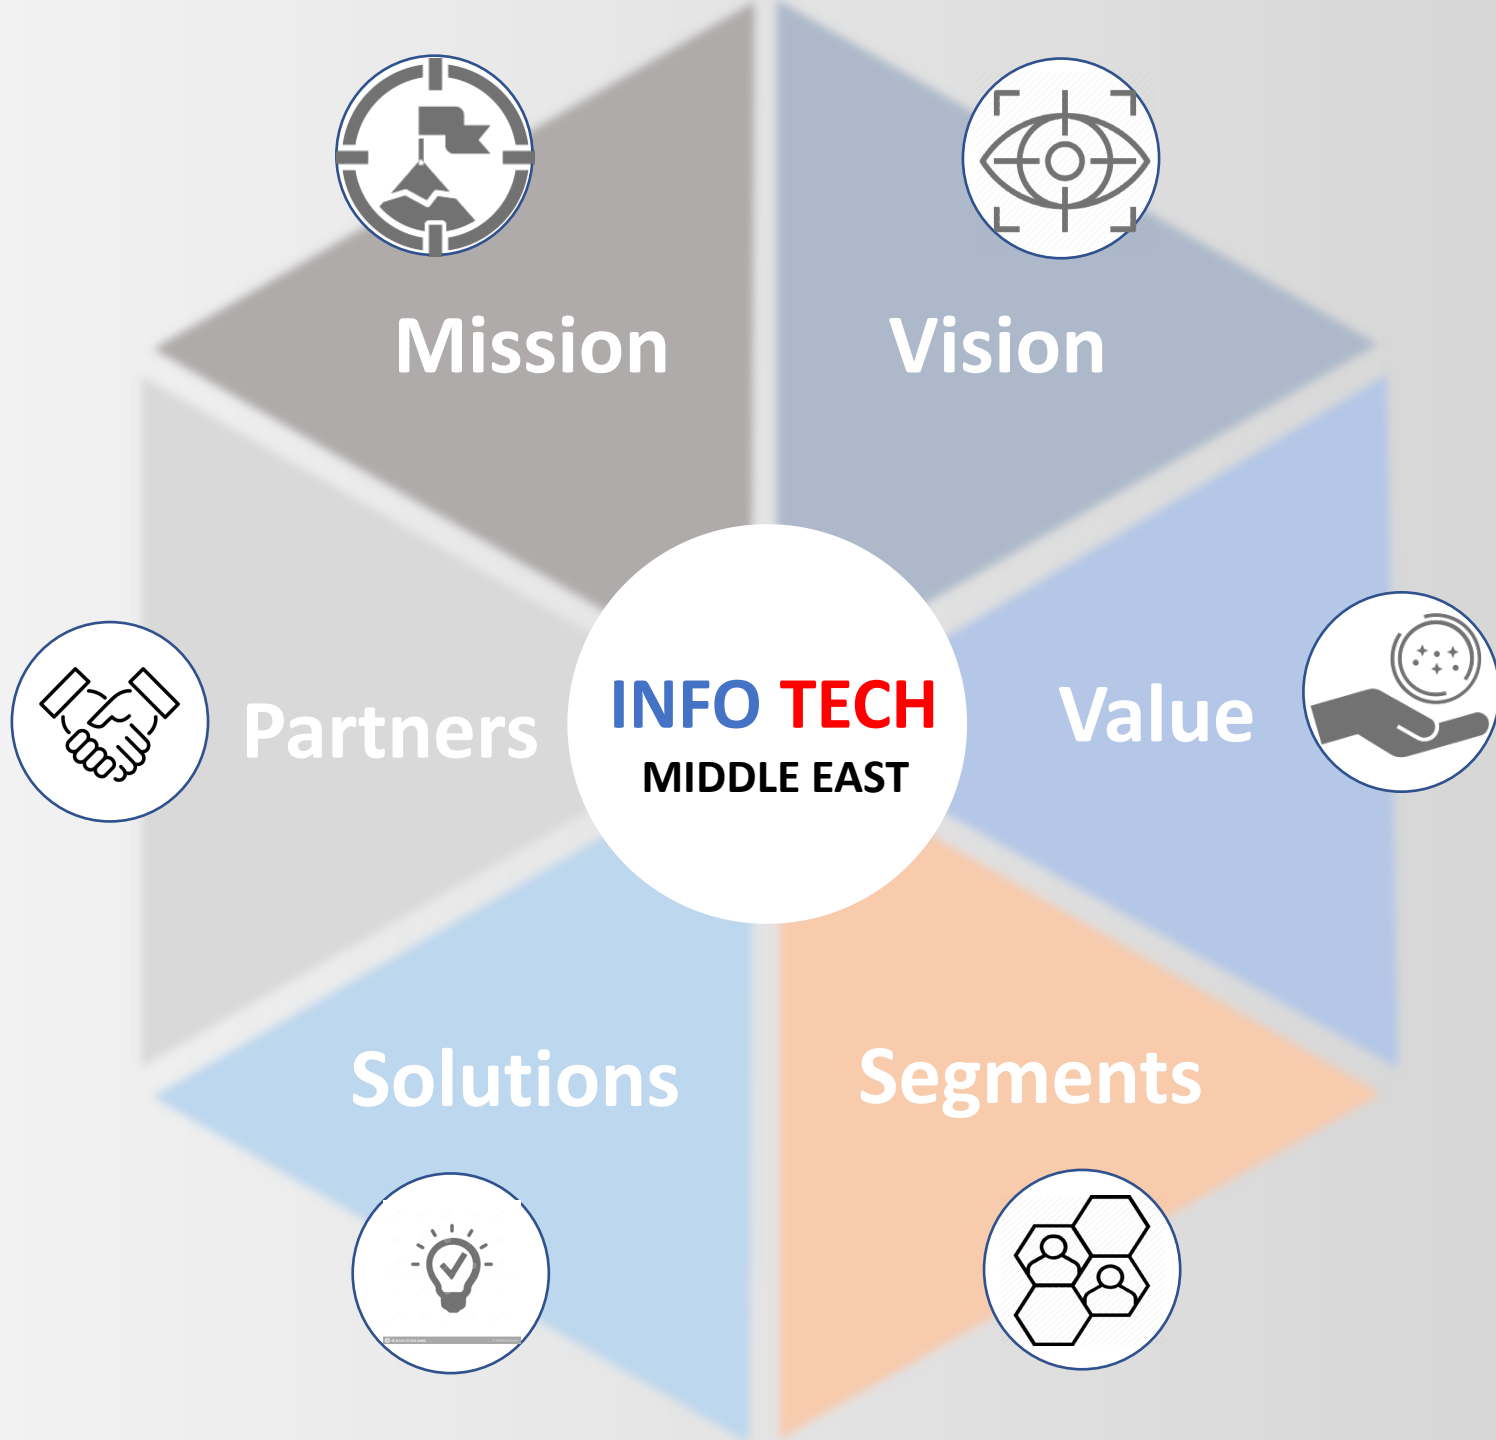

Since our establishment in 2010, we have become the fastest growing IT, IoT and AI company in DUBAI, United Arab Emirates. Driven by passion and hard work, we help our clients build stronger, more agile and innovative businesses.

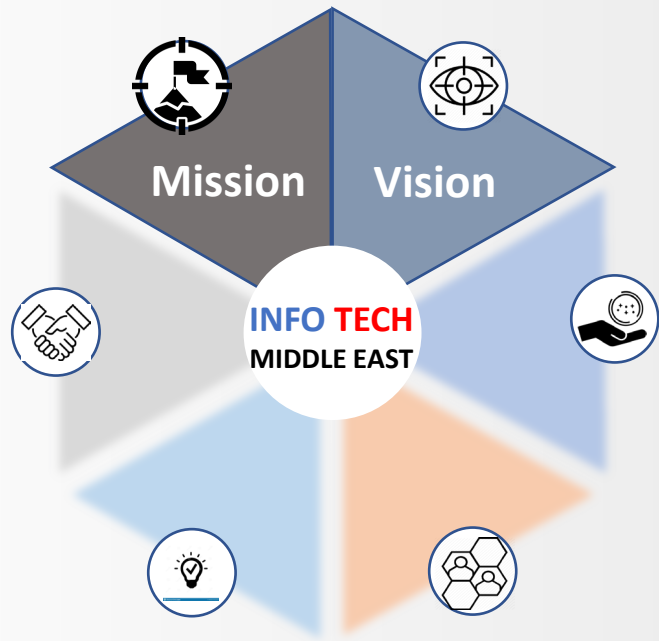

Rather than dwell on our past achievements, we look forward to enormous opportunities that are emerging from the growing shift to digital business.

We invest in new solutions and acquisitions, build our capabilities and develop our teams to ensure that INFO TECH MIDDLE EAST is well positioned to help clients explore the vast opportunity - and deliver on the potential - of this new digital business era.

INFO TECH MIDDLE EAST enables global enterprises to optimize their operations, manage their cost and invest in innovation that unleashes new potential across their organizations.

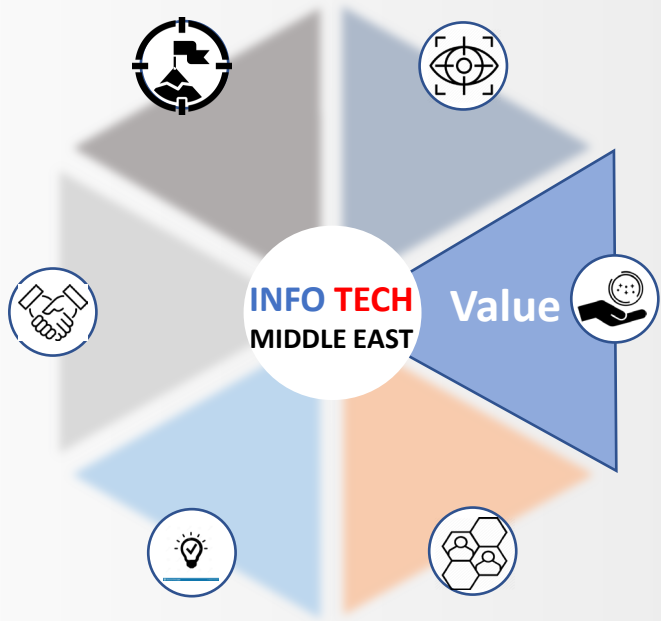

Mission

Leaning on core values of ***Integrity & Commitment***, INFO TECH's mission is to continue delivering the highest quality services to our customers by applying best practices from our team of Industry experts ensuring not only our customers success, but the establishment of INFO TECH Services as their ***Reliable Partner of Choice***.

Vision

Emerge as one of the leading companies in the Middle East in supporting our customers by providing enterprise solutions to achieve their enterprise goals through collaborative partnerships.

Collaboration: We are dedicated to a constructive, team-oriented environment, gathering varied perspectives, sharing knowledge, and building effective partnerships with key Partners.

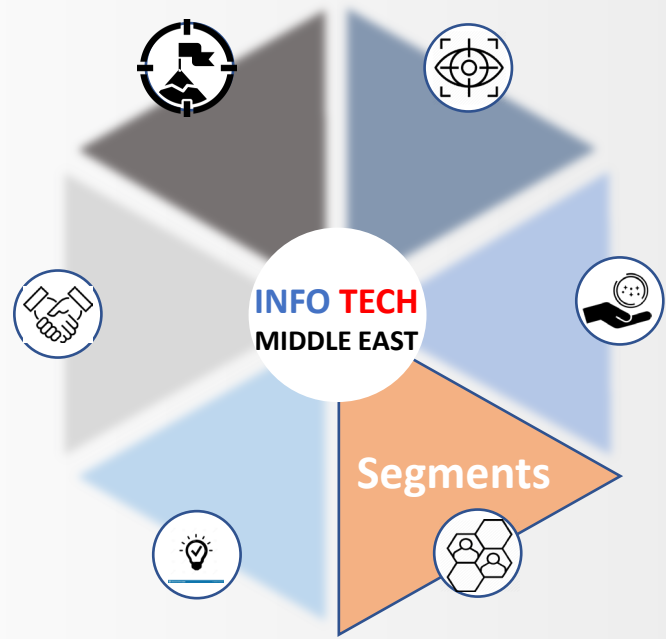

Continuous Improvement: We strive for operational excellence through the on-going development of our solutions as per needs of organizations.

Innovation: We encourage creative and critical thinking in the development of technology services and solutions.

People: We listen to, respect, and care for Partners, Venders, Business owners, and one another, both professionally and personally.

Service: We strive to provide excellent service by being consistent, agile, reliable, and accessible to all.

Transparency: We leverage open communications and thoughtful business processes to be accountable in our interactions and our work.

Solutions

- Industrial Networking & Infrastructure
- AI solutions
- EV charging stations
- Security Surveillance IP System
- Wireless Networking (WIFI, Microwave, Millimeter wave radio)
- Data Storage & Backup
- Bio Metrics Access Control System
- Structure cabling and Data Center
- Industrial Accessories
- IoT
- ICT
- Cybersecurity
- Private & Public cloud solutions
- OT
- WMS
- Gate barrier & intelligent automatic door

Industrial Solutions

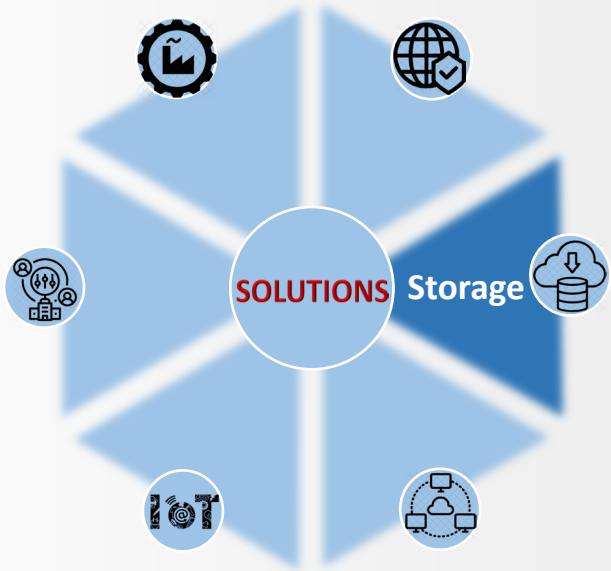

- AI monitoring
- Industrial Ethernet Gateways
- Industrial Ethernet Switches
- Industrial Routers
- Media Converters
- Network Accessories
- Network Management
- Industrial VPN Gateways
- Industrial GPRS, 3G, 4G Routers
- Industrial Wireless Networking
- Industrial Power Module
- Solar Systems
- EV charging stations
- Gate barrier and intelligent automatic gates

Serial Connectivity

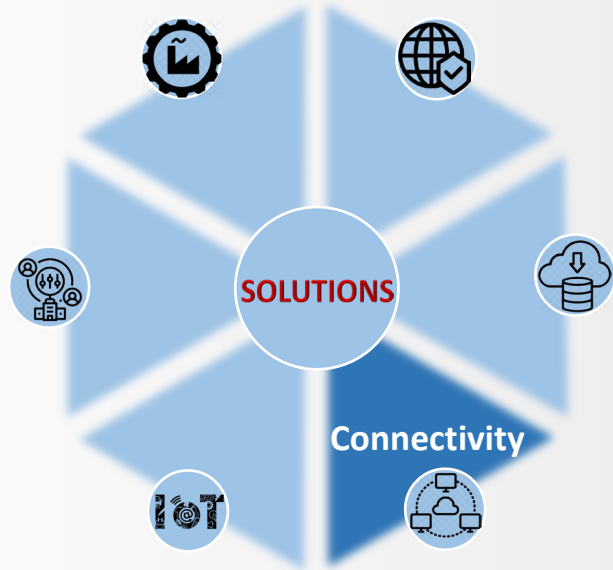

- Serial Device Servers
- Embedded Networking
- Fieldbus Solutions
- Multiple Serial Boards
- Industrial USB Converter/HUBS
- Serial Media Converters
- Surge Protectors
- Virtual COM Port

- IP Cameras
- Video Servers
- Video Recorders IP Surveillance
- Softwares Video Accessories
- CMS
- Bio Metrics
- Access Control
- Alarm Systems
- AI solutions
- Cybersecurity solutions

- Storage Servers
- Storage Software
- Cloud Storage
- Backup Solutions
- Public and Private cloud solutions

Wireless

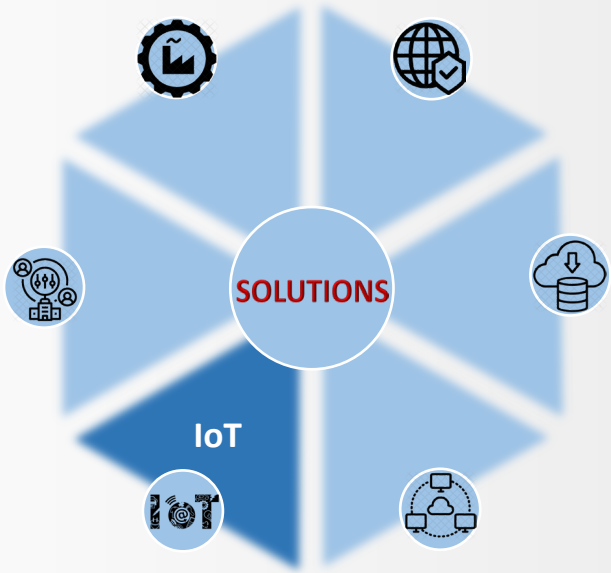

- Single-Radio Wireless AP/Bridge/Client
- Dual-Radio Wireless AP/Bridge/Client
- Rail Wireless LAN
- Microwave Backhaul
- Milimeter Wave Backhaul
- WiFi Networking

Cellular

- Industrial Cellular Routers
- Industrial Cellular Gateways
- Industrial Cellular Modems

Data Center

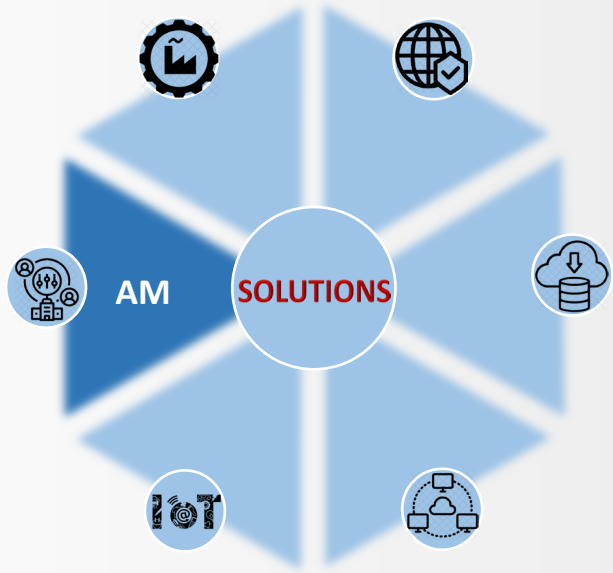

- Structure Cabling
- Rack System
- Pre Terminated Solutions
- Mobile Data Center
- Modular Data Center
- Power Supply

- Smart City
- Smart Home
- Smart Health Care
- Smart Office
- Smart Future Farm
- Transportation
- Energy

Technology

- LoRa
- Z-Wave
- Zigbee
- WiFi
- BLE

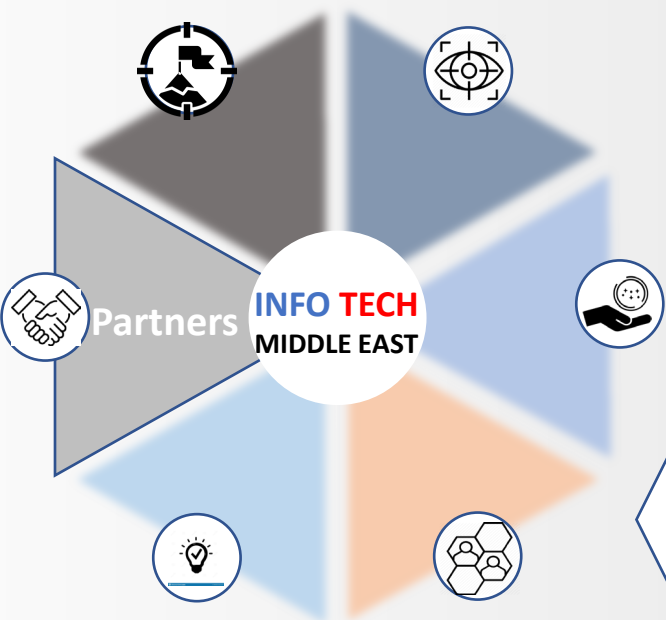

Asset Management

- Warehouse Management Systems
- Supply Chain
- Health Cares Asset Management
- Manufactures Management Systems
- Port Management Systems
- Automobile Management Systems
- Marins Management Systems
- Packaging and Printing Solutions
- UID Management Systems

Technology

- UHF TAG
- RFID TAG
- BLE Modules
- LoRa Modules
